

"Here Goes for
Another Cloth-
craft Suit"

I am like a good
many young
fellows you know.

I like to dress in neat
stylish clothes. I also
like to get the best
quality I can without
paying a stiff price.
That's why I am going
to stop in and see
Sutton & McBee about
my fall togs.

For one thing, I've made
up my mind to keep on
buying Clothcraft
Clothes. Ever been told
about 'em? They're
right in line with every-
thing Sutton & McBee sells.

You can buy a Clothcraft
suit or overcoat for \$10 to
\$15 and it fits, looks and
wears as well as many that
cost a great deal more.
The shape is out and sewed
right into the clothes, and
it stays even after you're
through wearing them.

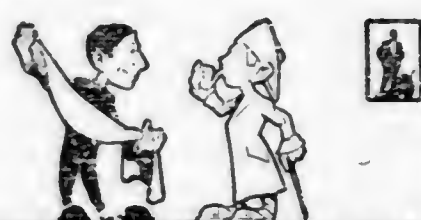

I never saw as good
suits as Clothcraft for \$15,
\$18 and \$20.

You get wool, wear and
comfort in Clothcraft, be-
cause they are guaranteed
absolutely.

Need a
New Pair of
SHOES?

Now is the time to
be thinking about
your Fall footwear.

These cool frosty morn-
ings make your oxfords
feel rather uncomfortable;
you cannot afford to risk
your health in this man-
ner when you can find
warmth and comfort in a
pair of WALK-OVER
shoes. A big lot of sat-
isfaction awaits you in one
of our new stylish Fall
models.

Take for instance this "Carlton"
model, it has the English effect
so popular with well-dressed men
of today, low receding toe with
the broad sensible heel to corre-
spond, and with the stitched tip
makes a very dignified and con-
servative look any man would be
proud to wear.

Made in Black, and Tan Calf Leathers

Model 6020. Here is a suit
so well designed that the personality
of the wearer is emphasized. Broad-
cloth, the most tractable and beautiful
of materials, is used to develop it. The
coat demands special attention by its
novelty of cut. The loose tab collar,
button and tassel-trimmed, gives the
back an unusually smart touch. Tunes
of broadcloth are always beautiful, and
nothing could have given the finishing
touch to the coat as this high standing
collar of velvet.

LIVINGSTON.

Mrs. A. Penning, who has been
very sick for some time, is some-
what better at this writing. — W. M.
Hicks and James Sims have re-
ached a compromise on the following
conditions, as they were contes-
tants in the field of matrimony.
The compromise is as follows:
James Sims has left the county
and for which he is to receive the
following \$5,000: one six year
old horse, saddle and bridle, and
Sims is not to make but one trip
to the county and then he is not
to come nearer Livingston than
the county bridge. Now, this is a
fact for Mr. Sims told the writer
the whole story and when Hicks
was asked about it he never denied
the deal. Hicks says C. C. Crom-
er got married and that induced
him to make another effort, and
with Sims out of the territory he
thinks he will have easy sailing. —

A ROCKCASTLE ENTERPRISE

MAIDEN RIDGE NURSERY
AT CONWAY

Right in our doorway has grown
up within the past few years an
important enterprise which is
proving of vast benefit to Rock-
castle citizens. It is the Maiden
Ridge Nursery, near Conway.
This nursery is now prepared to
furnish a great variety of the best
fruit trees, strawberry and other
plants, all home grown and most
suitable for our soil at our request.
The owner, Prof. G. D. Smith, of
the Eastern Kentucky State Nor-
mal School, at Richmond, gives
us the following letter. Many
of our people can get these trees and
plants and reset them the same
day they are taken from the
ground. Call at nursery or write
Prof. Smith, at Richmond.

MT. VERNON SIGNAL:

I promised you to give you for
publication some figures about
Maiden Ridge. I bought 192 acres
at \$1.50 per acre in 1910 and be-
gan work February 10, the same
spring. I cleared six acres and
set it mostly in apples. That year
I built a two-room cottage. The
same fall I bought 101 acres be-
sides this and paid \$8 per acre. I
cleared twenty-five acres the next
year and double set it in peaches
and apples. I continued to clear
and set each spring and fall until
now I have seventy acres double
set with 200 trees to the acre.
About three years ago I started a
nursery that I might have trees of
good stock to set out my own
ground. My trees have given such
excellent satisfaction that I have
increased my nursery to 50,000
trees. I have put up three five-
room tenant houses and three
barns. I have put up over 1,000
rods of wire fence. I have now
nearly ten acres of strawberries
and will have about 3,000 trees in
bearing next year. I have set
about 9,000 peach trees, and 5,000
apple trees. To date my expense
has been quite heavy and previous
to this year has been far ahead
of income. The outlook is good and
since the peach this year come to
such great perfection on Maiden
Ridge, I have every reason to be-
lieve that success will come out of
it from a financial standpoint. I
am testing out 200 or more vari-
eties some of which has been
discarded and others such as the
Elberta peach, Aroma strawberry
and the Santa Rosa plum have
been found to come to great per-
fection and can be recommended
highly for Rockcastle county and
the mountains in general. The
Delicious apple and the yellow
Transparent also have come into
bearing and can also be highly
recommended. As other varieties
come in, I will publish their value
from time to time.

I am fully convinced that Rock-
castle county will some day make
one of the greatest fruit counties
in the state. It has the soil, cli-
mate, marketing facilities and the
people. What does it need more?
Orchards of the right varieties,
well trimmed, sprayed and culti-
vated. This will bring prosperity
as nothing else in the country can.

DEMOCRATIC TICKET.

For U. S. Senator—Long Term
J. C. W. Beckham, of Frankfort.
For U. S. Senator—Short Term
J. M. Cauden, of Versailles.
For Congress
Nat. B. Sewell, of London.

To the Voters of Rockcastle:

Mr. Sewell, the democratic, and Mr. Creech, the progressive nominee against Caleb Powers, have withdrawn in favor of Ex-congressman John Henry Wilson, of Barbourville, who will run for Congress as an independent republican.

Without putting down anything in malice against Mr. Powers, we ask what claim has he on the people for re-election. Two terms has he served as a member of Congress. \$20,000 in these four years he has drawn of the taxpayers money for representing us. But what has he done for that large sum of money received? Nothing, according to his own confession. He, himself, admits that he can be of no service. If he has rendered no service for \$20,000, what does or can he offer in return for the \$15,000 which he would draw for the next two years in case of re-election. The same condition will prevail the next two years that has in past four. Then if he cannot be of service, why should any republican who has his country at heart support him.

In view of his acknowledged inability to be of any service, isn't it the patriotic duty of every lover of his country, regardless of his politics, to vote against him? But some hide bound partisan may say Powers is for high protective tariff. So is John Henry Wilson. They may say Powers is for national prohibition. Mr. Wilson is himself a temperance man and in a position to help the true cause. He is as much a republican as Caleb Powers. John Henry Wilson has had experience in Congress and would feel at home back in his old seat. While there he was thought well of by democratic members and highly respected by his brother republicans. Mr. Powers is unpopular with the democrats and ignored by the republicans in Congress. Hence you see how useless he is in such a body.

In view of these admitted facts, the republicans, democrats, and progressives of this county should rally to the support of John Henry Wilson. Think it over, neighbors and go to the polls like God-fearing, country loving citizens, and do your duty like men.

"ON TO CUMBERLAND GAP"

"Boone Way" In Convention of the Southern Appalachian Good Roads Association.

Held at Bristol, Va., Tenn. Oct. 6-9, 1914

Boone Way is not dead nor yet is it sleeping. After unavoidable delays a Rockcastle delegate arrived at the meeting place before it closed. E. R. Gentry had been appointed to make the trip to Bristol but owing to a sudden spell of illness was unable to fill the appointment and James Maret, the faithful old worker in the cause, was sent in his stead. The following letter under date of Oct. 9th, Bristol Hotel, Bristol, Va., Tenn., to Mr. Gentry at this place gives some idea of what our delegate was doing while there:

Dear Ed:
Our delay in reaching Bristol had a happy outcome. Owing to a wreck ahead of our train, at Mendota, between Appalachia and Bristol, I didn't get into Convention hall until 8 p. m. meeting although I had met and mixed with the various delegates, in Hotel Bristol, where meeting was held, including Dr. Pratt, the President, C. A. Light and other more or less lights of the Association. I met with a royal reception. The night session of the meeting was practically given over to discussion of "Boone Way" and it would have done the hearts of Rockcastle citizens good to have been present. Meeting called to order at 8 p. m. (Eastern time, 7 o'clock at Mt. V.) Dr. Pratt presiding. The Doctor brought out his file of telegrams, after saying that old Rockcastle and South Eastern Kentucky had after many delays landed her representatives on the grounds in the way of a Boone Way Booster, who after passing thru many vicissitudes was here with a good report. Then he read the various telegrams which I had been sent, as follows: "Mt. Vernon, Ky., Oct. 6th. Boone Way representative unavoidably delayed, will start next train. Keep Boone Way on the map." "Mt. Vernon, Ky., Oct. 7th. Another delay, but we will have a man with you before closing of convention takes place. Leaving here Wednesday night." Mendota, Va., Oct. 8th. Eager cross ways of track, fourteen miles north of Bristol—am walking in. Send Band home, need not meet me at station; will cut across lots so can reach convention hall sooner.—James Maret."

The reading of these messages "brought down the house." Then I made report on Boone Way and your proposition of building ten miles of it in Rockcastle during 1915 and explained how it was to be financed. It pleased the convention greatly. All present endorsed the movement and said there would be something doing now since taking this new line of procedure and complimenting me very highly. Of course I felt mighty good over the proceedings though not taking it personally at all I gave them to understand it was not from my efforts alone but was the work of the Mt. Vernon Commercial Club and a large number of mountain husters along the proposed line from Crab Orchard to Cumberland Gap who put this road on the map and are everlasting, keeping the subject before the public. I wish you could meet Dr. Joseph Hyde Pratt. He is one of the most genial men I have ever met. He has been president of and is yet president of many road associations. He is State Geologist of North Carolina an officer and employee of the State and has been for years. He is a practical road builder and a man who every one admires and respects. He was again elected president of this association, the Southern Appalachian Good Roads Association, which meets next in Bluefield, W. Va., in 1915. Mr. Henry Roberts, president of Bristol Board of Trade (and a mighty fine man) requests me to compliment you on your suggestion and movement in going ahead with the proposed work of constructing 13 miles of Boone Way in 1915 as a starter, without waiting for national aid which might be some years hence. Program this morning at 10 a. m.—automobile trips over Bristol and county roads etc. of the two

states and adjourn at noon. I will leave here in afternoon for Cleveland, Va., where I will visit a sister, will probably not reach Mt. Vernon before Tuesday night."

Yours for Boone Way,
JAMES MARET.

Aldo trips were made by the delegates thru the courtesy of Henry Roberts and Board of Trade over the convict built road from Bristol to Wallace, in Washington County, Va., where the convict camp and stone crushing plant is located. Other trips were made including one of a 15 mile run into Sullivan County, Tenn. All these systems of roads are fine and automobiles often make 40 to 50 mile rate over straight lines. Bristol, Va., Tenn., is located in two states. The center of State street running East and West is the dividing line. On the Tennessee side it is "dry" and "wet" on the Virginia side but will be dry in the Fall of 1916 when prohibition will be put into effect as a result of the vote in the late election thruout the State. Bristol has a population of 18,000 and its hustling qualifications were taken in consideration and comparison made with numerous other cities of 50,000 population, the latter cities would have nothing over Bristol which has its tanneries, manufacturing plants, wholesale dry goods, groceries, shoes, hats, hardware, flour, grain and etc. not only in the matter of size is it the greatest jobbing center of perhaps, the United States, but the variety of manufactured products that are shipped to all parts of the country probably exceed in number and value the manufactured goods of any other city of equal size.

The object of the Association is to encourage the building and maintenance of good roads in the Southern Appalachian mountains and to promote the building of inter-state roads among the States of Virginia, West Virginia, North Carolina, South Carolina, Georgia, Alabama, Tennessee, and Kentucky. All the states mentioned have made great progress in road making except South East Kentucky which has lagged somewhat behind but is now showing much more interest in the subject than in the past and from indications will push good roads in future, especially will Boone Way receive the attention that it justly deserves and we hope will be pushed to completion.

One of the speakers in the convention had this to say: "Splendid touring pikes are already in existence from the line of the Lincoln highway at the Illinois border, thru Indianapolis to Louisville, and there is a fairly good pike in service from Louisville to Crab Orchard.

Considering the intense scenic and historical interest of the Kentucky route in contrast to the barrenness of the northern system, it is a safe assumption that the completion of the Boone Way link from Crab Orchard to Cumberland Gap, will swing the trend of transcontinental and interstate touring from the main route of the Lincoln highway south to the route of greatest interest.

To the great bulk of motorists and there are hundreds of thousands always on the roads, the choice of routes would be made without the least hesitation. From the east, the route of choice inevitably would be thru the wonderful valley of old Virginia to the Kentucky line, over the Boone Way, and north to the Lincoln highway before turning west. To the western tourists, approaching from the wide sweep of the Mississippi valley and from the more distant western country, the whole appeal would be to turn south at the Illinois border. Sick of the prairie after hundreds, even thousands of miles of it, the western tourists would inevitable steer south across Indiana and into the Kentucky hills rather continue across the flats and coke ovens of the northern route.

It is also to be considered that the opening of the Boone highway would offer a totally new and perfect touring route to the thousands of motorists of Indiana, Illinois and Michigan, the greatest motorizing states in the Union. There is no route discoverable on the map, available to these states for short tours of a week or less, which would offer even a small percentage of the attractions that are evident in the Kentucky territory. The opening of the Boone Way would also offer a clean sweep

from Chicago to Jacksonville, Fla., traversing the most interesting country available.

These are the arguments in favor of Boone Way which are reasonable and logical. It is only necessary to give sufficient publicity and continuous agitation to these arguments to secure the building of the road making the mountains of Kentucky, Tennessee and Virginia the touring center of the country, increasing land values, stimulating business and drawing the money-spending touring class into the territory concerned."

During the meeting there were demonstrations of practical road building at point in the outskirts of the city which proved of considerable interest and value to the delegates and visitors. Makers of road building machinery implements and drawing the money-spending touring class into the territory concerned."

Henry Roberts, Bristol's great est hustlers, was much in evidence seeing to it that everything moved smoothly and everyone had a hearty welcome and a pleasant time.

Rockcastle's delegate had the pleasure of the company of J. Tucker Bowling, on automobile trip Friday. Mr. Bowling is very pleasantly located in Bristol and is the junior member of the law firm of Asworth & Bowling. The senior member has, in addition to the office of District Attorney, a long established law practice. Our friend Bowling seems to be fortunate and successful in his work and location. Two automobiles are at his beckon and call when he needs or wants them. Rockcastle friends will be glad to hear of the success he is making.

The Boone Way man left Bristol at 6 p. m. Friday afternoon via Virginia & South Western road, changed cars at Spears Ferry, where the famous C. C. & O. road the "Cinchfield Route crosses the same at an elevation of sixty feet above the depot where your delegate climbed three sets of stairways to top of station where train was boarded for St. Paul a town some 25 miles East of Norton on [Continued on last page.]

WHAT WOULD YOU DO?

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had a severe cold? Could you do better than to take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and knows its value. Mrs. O. E. Sargent, Fern, Ind., says, "Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers

AMERICAN ROAD CONGRESS

Postmaster General Burleson takes a deep interest in road improvement and has accepted an invitation to address the Fourth American Road Congress, which will be in session in Atlanta, Ga., during the week of November 9

The Postmaster General, commenting on the subject, said: "While it is true that the public road has always been of fundamental importance as a local utility it has assumed a much broader significance within the past few years. The rural delivery service with its great corps of 47,000 carriers, has done much toward the development of country life and this vast service is materially affected by the condition of the public road. The parcel post has already justified the most sanguine prophecies of its original supporters. A combination of parcel post and good roads cannot fail to materially advance the prosperity of the country dwellers and at the same time promote in a very marked degree the welfare of the city population. The automobile has graduated from a merely pleasure vehicle to a recognized utility, and there are now well over a million and a half automobiles and auto trucks in the United States. "I feel therefore that the American Road Congress in Atlanta, will be dealing with a subject paramount in its importance to the American people and I trust that the men who are in a position to forward the movement for better roads will attend this great annual meeting. The impression seems to be quite general that it way to further the good roads

S. S.—11:20 a. m.
Praching—11 a. m.
B. Y. P. U.—6:30 p. m.
Praching—7:30 p. m.

Everybody is invited to these services and the members are especially urged to be present as we want to discuss the meeting and some other vital matters.

D. EDGAR ALLEN, Pastor.

Our James Maret was elected Kentucky State Vice President of the Southern Appalachian Good Roads Association, at its meeting in Bristol last week. He is assistant Secretary of Bristol-to-Lexington Highway. Secretary of Boone Way, a member of the U. S. Good Roads Association and has so many other positions and titles his friends are thinking of furnishing him a wheelbarrow to haul them in. Jokes aside, he deserves all the honors there can be bestowed upon him for his efforts towards better roads for the mountains. Speak an encouraging word if you can't do more in the movement for improved conditions.

BOONE WAY MAP. Our delegate to the Bristol, Va.-Tenn. convention in addition to securing splendid advertising of our Boone Way and Bristol-Lexington Highway had his map of our proposed line displayed upon the wall immediately to the right of the rostrum of the president or the association, who was chairman of the meeting, where it was largely reviewed and investigated by members from the eight states, belonging to the association. Many compliments were passed upon the simplicity and plainness in the drawing which required little if any explanation to have anyone understand the meaning thereof. Boone Way literature and buttons were also distributed.

The first open meeting of the Woman's Club for this season was held Friday evening at the home of Mrs. Albright. Mrs. Albright, Miss Rowlee, and Miss Martineau being hostesses. After a brief outline of the plan of work of the Club, given by Mrs. Sparks, the guests were delightfully entertained by the reading of selections from Bobby Burns, by Mr. Macmillan. Pictures of the Burns country, shown with a Radiophone, made the reading all the more enjoyable. The next feature of the program was a travel talk delivered by Miss Stewart of Langdon Memorial, by means of the radiophone. Miss Stewart was able to illustrate her very interesting account of a trip thru the Swiss country. The beautiful land of Switzerland became altogether charming as it was described in her most delightful talk. The delicious refreshments were not the smallest feature of the occasion. Every one present enjoyed the reception to the utmost.

BROADHEAD

The Teachers' Association of the second Educational Division met at Brodhead Friday Oct. 9th and proved to be one of the most interesting ever held in this county. Of the 20 teachers in this division sixteen were present and the entire program was carried out to a letter. The talks were practical and inspiring. The discussions showed that the teachers are abreast with the times and that the schools of Rockcastle county are making rapid strides in education.

Rural Supervisor J. M. Craig was present and joined in the discussions. Mr. Craig is interested in carrying out the course of study prepared by the state and in a systematic organization in the school work of this county.

All teachers present enjoyed the meeting and expressed themselves as being highly in favor of holding another meeting at this place later in the fall.

The Moonlight school which was in progress at this place last week was in every way a success. Six persons were enrolled and showed splendid progress in writing. A movement is on foot to start another Moonlight school at this place in about three weeks. The teachers and citizens are pleased with the success and are offering their services to all who may be interested.

Brodhead Graded School held the first regular examination last week and Supt. Picketon informs us that he is highly pleased with the work for the past two months. A remarkable feature of the work was the fact that the attendance increased 22 during the week of examination.

Mr. and Mrs. James Miller, of Indianapolis, Ind. were the guests of her sister Mrs. M. H. Barnes last week. Mrs. Myrtle Messer has accepted a position at the Mt. Vernon telephone exchange. Mr. and Mrs. Fred L. Durham, of Mt. Vernon, were visiting her parents Mr. and Mrs. J. F. Watson, Saturday until Monday. The game of baseball between Sparks Quarry and Brodhead, last Saturday, resulted in a score of 11 to 10 in favor of the visiting team, and had it not been for a little trickery on the part of the home team the result would have no doubt have been 11 to 5. The home team realizing their utter defeat, in the last half of the ninth inning rushed their best batters forward, succeeded in getting the visiting boys rattled, and made 5 scores. Mr. and Mrs. Mont Roberts visited his mother Mrs. Sallie Roberts at Gum Sulphur last Sunday afternoon. W. T. Brooks was called home last Saturday on account of the serious illness of Mrs. Brooks who had a severe attack of tonsillitis. She is much better now. Mr. and Mrs. Steve Proctor were with his mother here last Sunday. A revival meeting is in progress at the Baptist church conducted by the Pastor, D. Edgar Allen, of Mt. Vernon, and the Rev. H. C. Combs, of London, Rev. Combs, who is doing the preaching, is a very forceful speaking, and his hearers are very much pleased with his sermons. There will be no singing at the Christian church next Saturday and Sunday. Miss I. R. Storms has been quite sick the past week. Mr. and Mrs. A. M. Hiatt were with Mr. and Mrs. R. L. Smith in the Hiatt section last Sunday. Mrs. Lela Murphy, of Middletown, Ohio, is visiting relatives here this week. Mrs. Walter Smith spent last week with her parents, Mr. and Mrs. J. M. Owens. Mr. Smith came up last Sunday and she accompanied him to their home in Crab Orchard. Mr. and Mrs. Fred Hannah, of Nogales, Arizona, were the guests of Mr. and Mrs. J. Monte Roberts last week. Mr. and Mrs. J. F. Carter returned the first of the week from a two weeks visit to their son, Rev. J. D. Carter, at Wilmore. E. J. Ford, the Danville piano man, was here Tuesday calling on our merchants with a line of Ladies and Gents' furnishing goods. Mr. and Mrs. Bob Roberts, of Pine Hill, were with her parents, Mr. and Mrs. J. W. Owens during the week. Mrs. Sallie Roberts and Miss Elizabeth Gentry were up from Gum Sulphur Sunday to see Mrs. W. T. Brooks. J. G. Frith is quite sick at this writing. Frank and Cleve Brooks were in town Wednesday.

TORND UP WHOLE SYSTEM. "Chamberlain's Tablets" have done more for me than I ever dared hope for," writes Mrs. Esther Mac Baker, Spencerport, N. Y. "I used several bottles of these tablets a few months ago. They not only cured me of bilious attacks, sick headaches and that tired out feeling, but toned up my whole system." For sale by all dealers.

Bud Jarber, colored, was stabbed in the abdomen Wednesday night, but we understand that the wound is not necessarily a fatal one. Fred Myers, Logan Taylor and Richard Sowder were all with Jarber when the occurrence happened. Jarber says Myers cut him, Myers says Jarber cut himself while scuffling over a knife. Since he boys had an extra amount of white lightning ahead we quote them knowing just how it happened. Since we know all the parties, we can not believe that any motive prompted to the boys to willfully stab the colored man. Myers Taylor and Sowder all surrendered but were released on bond. Thinking an operation would be necessary, Dr. Pennington of London, was called in connection with Dr. Owens. We understand, that after a careful examination the operation was deemed inadvisable, as they thought the patient would do alright without the use of the knife.

A TEXAS WONDER. The Texas Wonder cures kidney and bladder troubles, removing gravel, cures diabetes, weak and all irregularities of the kidneys and in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle in two months treatment, and send for testimonials from his and other states. Dr. E. W. Hall, 2926 Olive street, St. Louis, Mo. Sold by Druggist.

The latest from the big land deal headquarters is that the deal will be a go and that offices will be opened in Mt. Vernon next week, and begin taking over the land. This will be splendid news to the people of Rockcastle and the adjoining counties where developments will follow if the land sells.

E. Bullock, one of the county's biggest hearted citizens and a man who always stands for improvements, besides selling lots of harness, saddlery etc., is doing some thing on his farm as well. His latest contribution to the list of splendid productions, is a pear, of the Bartlett variety, which weighs 1 1/2 pounds and measuring over 9 inches in circumference. The editor has this pear saving for his own tooth and to our good friend, Mr. Bullock who is one of the few men who thinks that the newspaper man is entitled to any of the good things, we are under many obligations.

DEAFNESS CANNOT BE
CURED

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BOONE WAY

(Continued from 3rd page)

Norfolk & Western railroad, stopping over night at the Blue Sulphur hotel where the bluest of blue water can be found. A ten mile trip was made Saturday to Cleveland, Russell County, where a sister was to have been visited whom the delegate had not seen for many years. No notice had been sent of his intended visit and when he reached that station he learned she was on a trip to Washington county in which Bristol is located and not many miles from the latter place. The delegate was wisely entertained at Cleveland by his nephew and niece, Mr. and Mrs. Robert Mayes and little Olga, their pretty little daughter while on the trip and in the old dominion the Boone Way man visited the following places and viewed the good roads outside of Bristol: Wallace, (a fifteen mile line in Sullivan County, Tennessee) Spears Ferry, St. Paul, Castlewood, Coeburn, Tom's Creek, (where 150 cars of coal and coke are loaded daily) and Norton. Four of these points are in Wise county where one million dollars has been appropriated for building highways. Wise county roads were the best observed by Rockcastle's delegate outside of Bristol proper. They are smoothest and most perfect specimens of road building he has seen. Bristol Board of Trade with Henry Roberts promise to have all gaps closed up between Cumberland Gap and their city by or before the end of 1915, and are particularly interested in Boone Way being put thru.

Mr. Roberts, Bristol's good roads hustler secured from our delegate the names of the leading citizens of Crab Orchard, Brodhead, Mt. Vernon, Pine Hill, Livingston, London, Barbourville, Pineville, and Middlesboro, whom he will get in correspondence with and urge upon them the great importance of co operation all along the line in putting this great highway thru to a successful conclusion. We are now approaching a working basis and there is no earthly reason why we should fail to accomplish this undertaking that is of so much importance to the millions.

The automobile manufacturer's and associations, whose representatives were at this convention, who have spent and are spending millions in pushing good roads, we are assured will be ready to lend assistance to Boone Way when it is demonstrated that its promoters and parties at interest will start the work and make some progress showing their interest and that they mean business. It is up to

Laurel, Knox and Bell county to make a move. Rockcastle has already got its movement under way thru the Fiscal Court to construct ten miles in 1915 and to prosecute the work as fast as possible thereafter to complete the other ten miles which will carry it thru the county from Northwest to South east. The finishing of the line from Crab Orchard to Mt. Vernon will bring hundreds of tourists to Mt. Vernon as soon as the road is completed to this point. With good hotels and an abundance of the best water in America and fine mountain scenery the tourists simply can't resist the call. The advantages of delivering coal and other products down the line to and even beyond Crab Orchard is of greater value than other interests and combine them they will provide a big income for our people.

Complete maps covering a good portion of the eight states were furnished all delegates and others. Many enlarged maps of local and county and state roads with many photographs of interesting views adorned the walls of convention hall.

The Boone Way representative was elected Kentucky State Vice President of Bristol-Lexington Highway. This highway takes to route of Boone Way at Cumberland Gap and follows it to Crab Orchard, thence thru Lancaster, and Nicholasville to Lexington or possibly via Stanford and Danville if the citizens of these towns take sufficient time to inform themselves that such a road movement is on foot, which they seem to have failed to do heretofore or take appreciable interest in the matter of putting a road thru the mountains. Crab Orchard has done nobly.

The Bristol Herald in its fine write ups of the convention proceedings gave Boone Way and its delegate a splendid boost.

It is interesting to note that in the construction of the Bristol-Lexington Highway and Boone Way modern roadway engineers have followed the trail blazed by Daniel Boone, the pathfinder of years ago, in his efforts to leave civilization far behind him. The restless old hunter had the knack of following the line of least resistance in piercing the mountains. The trail which he hewed for himself into Kentucky, the "Dark and Bloody Ground," is known as the "Old Wilderness Road or Boone Trail" and passes thru Cumberland Gap.

The highway together with the Crest-of-the-Blue Ridge and the Bristol-Charlotte Highways, will give direct connection between Kentucky and the States north and west of the Ohio River and the great Southeast, and therefore will bring tens of thousands of tourists and sightseers to the Southern Appalachian territory annually. The same route will allow returning tourists from the resorts in the Carolinas, Georgia, and Florida to motor their way straight thru the "Land of the Sky," "The Sapphire Country" the awe-inspiring scenery of Eastern Tennessee, Southwest Virginia and the Blue Grass territory of Kentucky, via Ashville, Bowling Rock, Bristol, Mt. Vernon and Lexington.

The Natural Tunnel, located on the Bristol-Lexington Highway, is justly known to be one of the most interesting as well as peculiar sights to be found in all America. It has been termed "One of Nature's most wonderful freaks." This tunnel pierces a towering ridge of solid rock from east to west. Nature's handiwork has been found so perfect that the tunnel is utilized by a railroad, affording a passage far better than any which could have been bored by hydraulic drills. The freak is further interesting thru a crater in its center which forms a chimney-like aperture thru which the blue sky may be seen by those standing in the very bowels of the mountain.

Isaac Shelby, the first governor of Kentucky, was one of the leaders who organized the little Army of the Holston, who harassed the mountains and fought and won the Battle of Kings Mountain and thus turned the tide of the American Revolution. When this road is completed his descendants and the descendants of Boone and those who went over the "Old Wilderness Road and Boone Trail," may motor back and visit the scenes made historic by their ancestors. "On To Cumberland Gap" (AND BRISTOL)

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill."

I wish every suffering woman would give
